Dear Family Member:

Ben Franklin was a printer, statesman, newspaper owner, and inventor. He was a very creative person with many wonderful ideas. He liked solving problems. In the 1700s, all houses were made of wood. If lightning struck a house, it burned to the ground. Franklin solved the problem. I can't wait to finish *How Ben Franklin Stole the Lightning* and find out how he did it.

Queridos familiares:

Ben Franklin era impresor, estadista, dueño de periódico e inventor. Era una persona sumamente creativa que tenía muchas ideas extraordinarias. Le gustaba resolver problemas. En el siglo XVIII todas las casas estaban hechas de madera. Si un rayo caía en una casa, la quemaba hasta los cimientos. Franklin resolvió ese problema. Espero terminar pronto de leer *How Ben Franklin Stole the Lightning* para poder enterarme de cómo lo hizo.
