"I Need More Letters Said thr, spr, scr, and str." Study the words for a minute or two. I'll give you a cluster of letters, such as **thr**. Try to remember the words with those letters and spell them aloud. Let's see how many you can remember.

Dear Family Member:

The Planets in Our Solar System gives us a big look at space and the planets in our universe. It tells us where and how Earth fits in. And it tells us interesting information about each of the planets. Did you know that the temperature on Venus is about 860 degrees? What I just told you is a summary of the book. It gives the main idea and one or two details about it. I'm looking forward to what else I'll learn.

Name _____

Pickin' Flowers

Let's read the article below.

A guide described the kinds of flowers we saw in our local garden. Bees love apple blossoms. Golden marigolds give off an odor that many insects do not like. Red and yellow rose petals are chopped and used in cooking. Just like people, flowers are special in their own ways.

We can use these clues to complete the puzzle. Then use the words to complete the summary.

1. most important
2. a thought
3. blossoms
4. red and long-stemmed
5. preparing food
6. turn away insects
7. exceptional, not usual

Necesito decir más letras thr, spr, scr, y str. Estudia las palabras por un minuto o dos. Te daré un grupo de letras, como por ejemplo **thr**. Trata de recordar todas las palabras que tengan esas letras y deletréalas en voz alta. Vamos a ver cuántas palabras puedes recordar.

Queridos familiares:

El libro titulado *The Planets in Our Solar System* nos ofrece una mirada general al espacio y los planetas en nuestro sistema solar. Nos dice dónde y cómo se encuentra el planeta Tierra. También nos ofrece información interesante acerca de cada uno de los planetas. ¿Sabías que la temperatura en Venus es de alrededor de 860 grados? Lo que te acabo de contar es un resumen del libro. Te dice cuál es la idea principal y uno o dos detalles sobre la misma. Quiero ver qué más voy a aprender.
