### Dear Family Member:

In class we are reading the article "An American Hero Flies Again." It's about astronaut John Glenn and the space program. I'm learning to look for the problem in an article and the steps that lead to solving it. When America wanted to land a man on the moon, it was John Glenn who worked on the inside layout and the controls. His work led to Neil Armstrong's moon landing. Those were big problems and complicated solutions. But small problems can be solved the same way, one step at a time.

### Queridos familiares:

En la clase estamos leyendo el artículo *An American Hero Flies Again*. Es acerca del astronauta John Glenn y el programa espacial. Estoy aprendiendo a buscar el problema en un artículo y los pasos que llevan a resolverlo. Cuando Estados Unidos llevó al hombre a la Luna, John Glenn trabajó en la disposición del interior de la nave y los controles. Su trabajo llevó a que Neil Armstrong pisara la Luna. Esos eran problemas grandes y soluciones complicadas. Pero los pequeños problemas pueden ser resueltos de la misma manera, un paso por vez.

### Chè manm fanmi :

Nan klas n ap li atik ki rele "*An American Hero Flies Again.*" Li pale konsènan astwonòt John Glenn ak pwogram espasyal la. M ap aprann pou m chèche pwoblèm lan nan yon atik ansanm ak etap ki ka pèmèt mwen rezoud li. Lè Amerika te vle fè yon moun ateri sou lalin lan, se te John Glenn ki te travay sou dispozisyon enteryè ak kontwòl yo. Travay li te pèmèt Neil Armstrong ateri sou lalin lan. Se te kokennchenn pwoblèm ak solisyon ki konplike. Men yo ka rezoud ti pwoblèm yo menm jan an, yon etap alafwa.
