Dear Family Member:

This week we're reading *The Gold Rush Game*. It's a science fiction story about Eric and Matt, who travel back in time and meet Eric's great-great-great grandfather. His ancestor went to California during the days of the Gold Rush. Eric is afraid that their visit will affect the future of his family. It will be interesting to read about their adventures and about how they get back home.

Time Travel

Suppose we could travel back in time. What actions would we take that might change history? Let's read the events below and talk about how our actions will affect the future.

On April 15, 1912, one of the most tragic accidents in history occurred when the ship *Titanic* hit an iceberg and sank. Over 1,500 people lost their lives. Some say the ship was traveling too fast and was unable to turn in time to avoid hitting the iceberg. You are a time traveler on the deck of the *Titanic*. What will you do? How will it change history?

You are a time traveler who has gone back to the Cretaceous era. Dinosaurs roam the Earth and large reptile-like creatures swim in the sea. Pterodactyls rule the skies. A large asteroid is traveling toward Earth. It will hit the spot where you are in one hundred years. The collision will destroy this area of the world and wipe out the dinosaurs. What will you do? How will it change history?

Queridos familiares:

Esta semana estamos leyendo *The Gold Rush Game*. Es un cuento de ciencia ficción que trata de Eric y Matt, quienes viajan al pasado y se encuentran con el tatarabuelo de Eric, que había ido a California en los días de la Fiebre del Oro. Eric tiene miedo de que el encuentro con su antepasado afecte el futuro de su familia. Va a ser fascinante leer sobre las aventuras de Eric y Matt y ver cómo logran regresar de su viaje.
